

VET IN SCHOOLS

A PATHWAY TO POST-SCHOOL EMPLOYMENT AND TRAINING

VET in Schools (VETiS) refers to the vocational education and training (VET) undertaken by school students as part of their senior secondary certificate of education. The VET in Schools arrangement offers two main options: most students undertake VET subjects and courses as part of their school curriculum while some students undertake school-based apprenticeships and traineeships.

This infographic is based on the reports *Australian vocational education and training statistics: VET in Schools 2016* and *VET in Schools students: characteristics and post-school employment and training*, both of which are available from the NCVER Portal <<https://www.ncver.edu.au>>.
