Passions & Pathways

Primary Schools & Workplaces in Partnership

Dear Passions & Pathways partners

RE: Passions & Pathways 2020 and impacts of Coronavirus

After serious and deliberative consideration, the decision to cancel Passions & Pathways for 2020 has been made.

As you would be aware, students are working remotely in term two and most workplaces have altered their working arrangements. This unusual situation is challenging for all concerned.

When return to “normal classes” occurs, school priorities will likely focus on internal community re-building with students re-connecting to their respective classes, teachers and classmates. Attention to literacy, numeracy and other curriculum areas will be uppermost combined with term four preparation for the Year Six students’ transition to secondary schooling in 2021.

Passions & Pathways partners in the business community are facing many challenges with priorities that would likely preclude the hosting of Passions & Pathways students later in the year. For some, survival of workplaces, either currently or in the future, may be a prospect.

The GLLLEN looks forward to commencing planning for Passions & Pathways in 2021 with stakeholders later this year.

Your generous support of, and participation in, Passions & Pathways makes a significant contribution to young students as they develop an understanding of “the world of work”.

I wish you all ongoing health and resilience.
